## Voce Fina Reference Standard Bookshelf Monitor

Quartz and feldspar, molten together at over 2,300 degrees Fahrenheit deep in the Earth's crust for millions of years, have helped create this stunning piece of art. Granite is one of the strongest and most dense materials known to man. This all-natural, beautiful, and sustainable material is combined with Status Acoustics' relentless pursuit of sonic perfection: decades of research and development, changes in components and design, and innumerable hours. Introducing the all new Voce Fina reference standard bookshelf monitor.

The Voce Fina is no ordinary speaker system; gone are traditional building materials, methods and components. The Voce Fina elegantly brings together award-winning craftsmanship with the finest materials and components money can buy. Due to its unique design, the Voce Fina is capable of presenting its listeners with unaltered, pure musical fidelity, the ultimate goal of any audiophile.

Proprietary Beryllium alloy midrange woofer and Scan-Speak soft fabric dome tweeter are used due to their incomparable performance.

## Drivers

A 6½-inch proprietary Beryllium alloy cone woofer and a 1-inch Scan-Speak soft dome tweeter were chosen due to their unequalled performance.

## Enclosure Construction

The Voce Fina's enclosure is constructed of two-centimeter thick granite. The interior walls are lined with four separate layers of sound absorbing and wave blocking elastomeric-butyl material. The result is sound that is extraordinarily pure and detailed.

## Enclosure Choices

Virtually unlimited selection of granite.

## Voce Fina Technical Specifications

### Frequency Response:

50Hz - 20kHz ±3dB

### Sensitivity:

87db (2.83V/1Meter)

### Recommended Power

50-200 Watts

### Drive Units:

1" (25mm) Scan-Speak Soft Dome Tweeter  
6.5" (165mm) Beryllium Alloy Cone Woofer

### Crossover Frequencies

2,700Hz

### Impedance

8 Ohms

### Speaker Dimensions

14-1/2" H x 9-1/8" W x 11-1/4" D  
(368mm H x 232mm W x 286mm D)

### Speaker Weight

53 lbs. (24.04 kg)

### Speaker Stand Dimensions

30-1/2" H x 17" W x 13" D  
(775mm H x 432mm W x 330 D)

### Stand Weight

67 lbs. (30.39 kg)

Made in the U.S.A.
